Graphic Elements

Our brand is more than our logo, typeface, and colors.

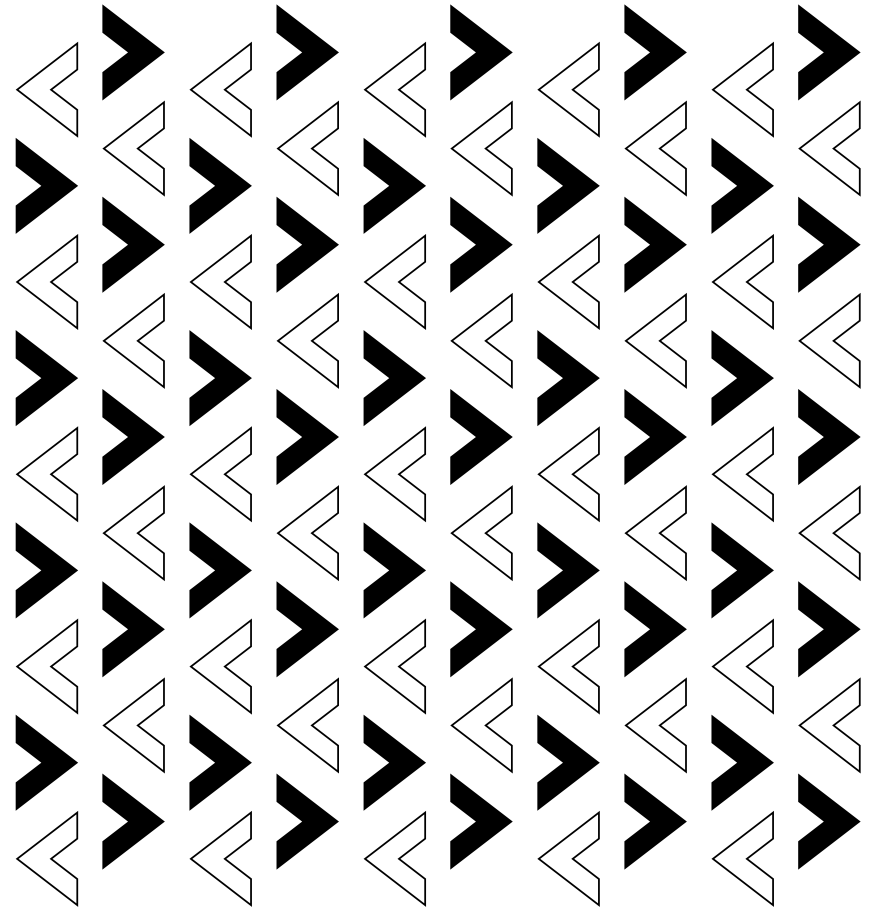

We also have a system of graphic elements that are an integral part of our look and feel.

These elements are inspired by our logo, who we are, and what we do.

Note: (maybe we can change "who we are, and what we do" to "our principles")

Used alongside our logo, typography, and color palette, our graphic elements create impactful visuals that represent who we are and what we do.

Overview

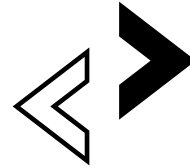

Graphic Elements

We have a unique graphic element we use with our logo, and we created them to visually represent multiple things - growth, collaboration, empowerment, innovation, and excellence.
